What exact number of new and/or established cardio-oncology patients do you see PER WEEK?

Select one of the three options below:

- 1: 1 patient/week (50 patients/year)
- 2: 2-5 patients/week (51-250 patients/year)
- 3: >5 patients/week (>250 patients/year)

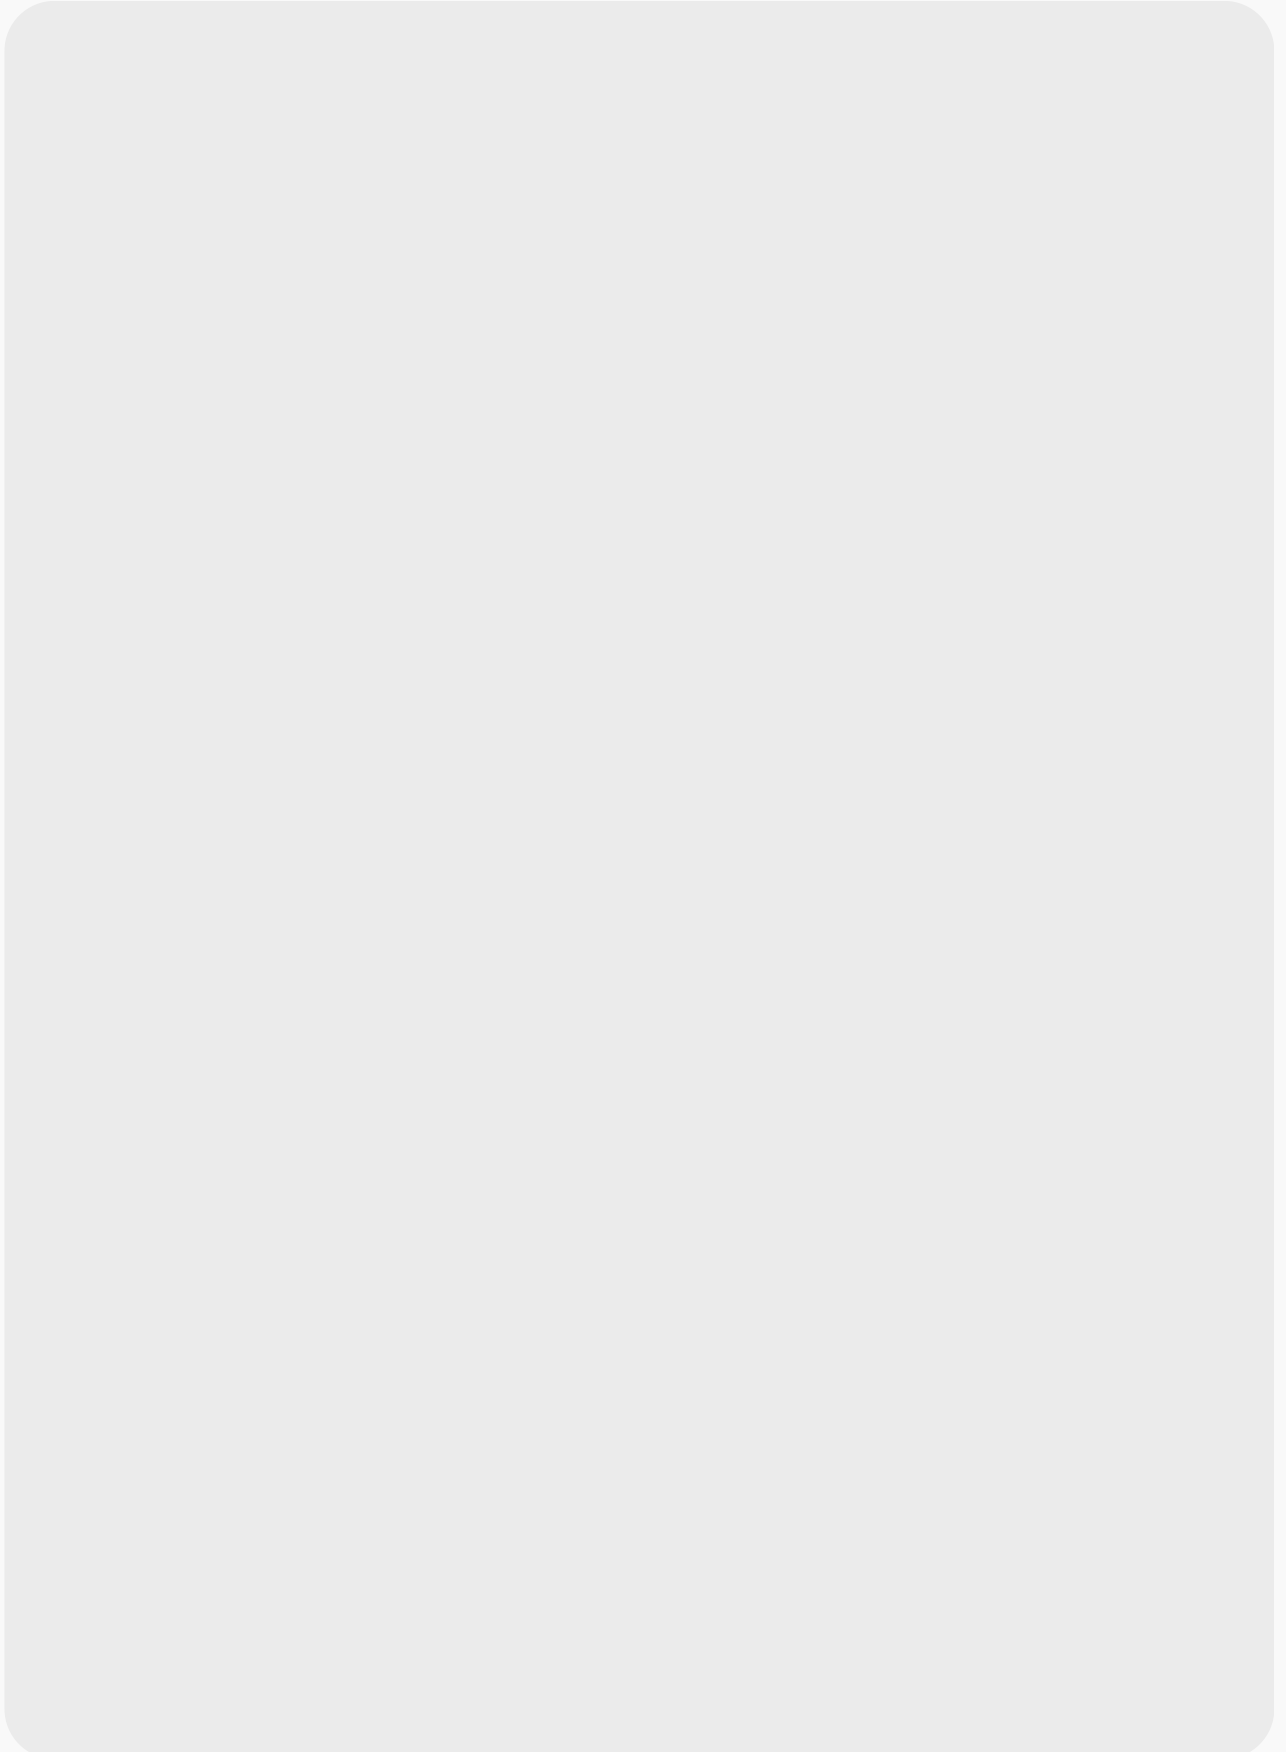

2

List all cardio-oncology research projects and publications (only in Cardio-Oncology) by your faculty/physicians/allied professionals over the past three years:

Select one of the three options below:

- 1: Abstracts at national meetings or < 3 manuscripts
- 2: 3+ Manuscripts
- 3: Funding, registry or clinical trial participation
(Must meet criteria for either 1 or 2 as well for 3 points)

(Use this page only if needed)

3

List all educational activities to which your cardio-oncology team has contributed (Case presentations, Invited talks at local / regional / national conferences, grand rounds, nursing education, tumor boards, etc.):

Select one of the three options below:

- 1: Local education (including tumor boards)
- 2: State-wide/Regional or national/international education
(Must meet criteria for #1 as well)
- 3: Cardio-oncology fellowship or advanced training program
(Must meet criteria for 1 and 2 as well)

(Use this page only if needed)

4

Describe any cardio-oncology quality improvement projects you have developed (Including structured pathways of care, EHR integration or workflows, etc.):

Select one of the three options below:

- 1: Local/Institutional project
- 2: State-wide/Regional project (*beyond your own institution*)
- 3: National/International project

(Use this page only if needed)

5

Describe any cardio-oncology committee or society involvement by your faculty/physicians/allied professionals (Committee or council level involvement with organizations such as ACC, AHA, ICOS, ASCO, etc.):

Select one of the three options below:

- 1: Local/Institutional
- 2: Regional/State-wide
- 3: National/International

(Use this page only if needed)

6

Describe programmatic building projects you have completed:

Select one of the three options below:

- 1: Local practice or institution -
Evidence of collaborative/multidisciplinary program activity
- 2: Expanding the program to more than one site (*e.g. adding community sites*), working with children's hospital or transitional care, establishing a Cardio-Oncology survivorship program
- 3: Development of Cardio-Oncology collaborative programs outside your institution (*i.e. telemedicine consults*)

(Use this page only if needed)
